

Hello from ELF Hostel!!!

Let us introduce one of our hostel friend, Ivo Hristov Simeonov, really good painter, who decided to travel around the world to get more inspiration and create more really beautiful pictures. Also in our hostel he made a lot of bodypaintings to our happy backpackers, made a lot of nice memories by painting the historical pictures of the old city center. Some of our dorm rooms has been created by him as well.

If you guys will be interested just to check some of his work, have look to:

www.manuart.org

If you like his work, sure he will be happy to help you with paintings and other art works for some kind of the discount or free stay for couple days...

So at all, we can really recommend his work !!

Best regards
